EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. Cancel claims 68-91.

2. Claims 1-17, 19-42, 44-54, 56-58, and 60-67 are allowed.

3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests a transistor which has three gate electrodes such that there is a central gate that is surrounded by two side gates where the central gate has a conductive cap layer and the two side gates are electrically connected by another conductive cap layer.

4. Balasubramanyam et al. (USPN 6,114,736) discusses gate electrodes with regard to work function. However there is no disclosure of a three gate device with the two side gates being made of one conductivity type and the central gate being made of another conductivity type. Thus Balasubramanyam does not teach the applicant's device.

5. Yu et al. (USPN 6,281,559 B1) also discusses gate electrodes with regard to work function. In particular, it pertains to the use of germanium in a gate electrode.

However there is no disclosure of a three gate device with the two side gates being made of one conductivity type and the central gate being made of another conductivity type. Thus Yu does not teach the applicant's device.

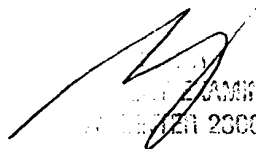

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
